# DISTINCTION

*Style with Function*

Distinction curtain tracks are a blend of elegance and functionality allowing effortless operation in the trickiest of situations.

Bay windows, and very wide windows & doors were a 'window dressing' nightmare until the concept of tracked poles arrived. The technology is simple – the brackets are fitted above the track meaning there is none of the traditional conflict with curtain rings hitting into them.

The Distinction range allows even a single curtain to traverse a large bay window, or cover over a patio door without being restricted.

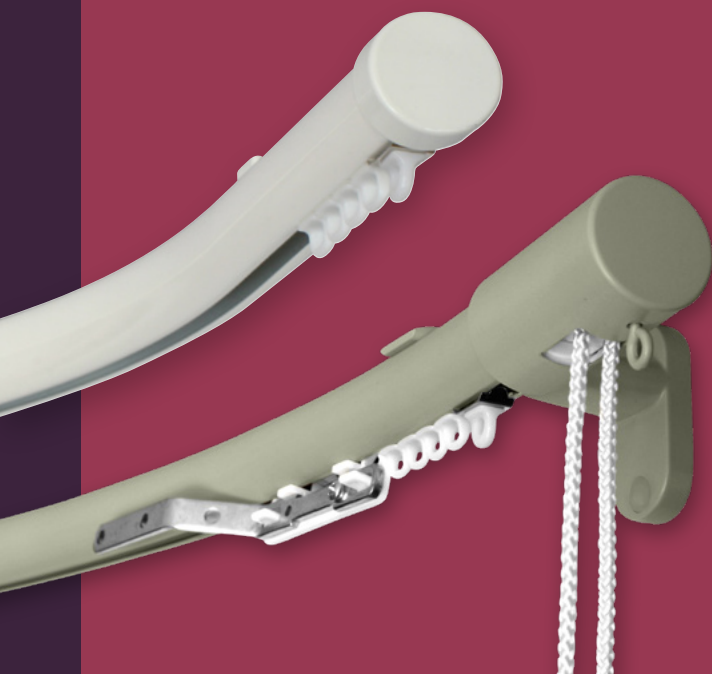

# DISTINCTION

*Style with Function*

## DISTINCTION 28ROUND

The clean and smart looks fit with the most contemporary decor, whilst at the same time not looking out of place in the most traditional setting, especially with the addition of the finial options. Available Corded or Uncorded.

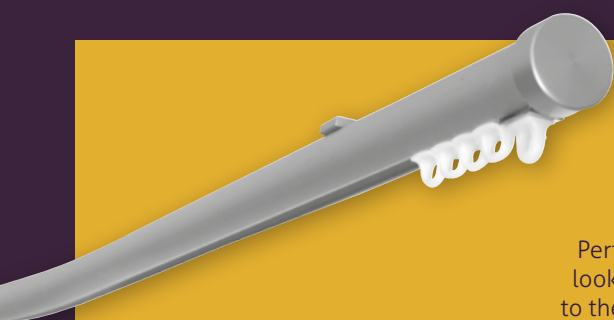

## DISTINCTION 34FLAT

A must for contemporary decor particularly when used in conjunction with the flowing fabric waves created by the Surge glider option – the Flat profile caters for the most modern taste. Available Corded or Uncorded.

## DISTINCTION 20ROUND

Perfect for the understated or minimalist look. Distinction Round 20 is often added to the rear of a double pole system carrying voiles, with the larger Distinction Round 28 at the front carrying the heavier curtains.

# DISTINCTION

## Uncorded Tracks

### Key Features:

- Excellent for bay windows and very large windows as the curtains do not conflict with the brackets
- Available in 11 colours with colour matched wall or ceiling fix brackets.
- Glider channels are coated with silicone and PTFE
- Colour matched brackets & endcaps
- Pair or single stack
- Efficient nylon gliders as standard
- Optional of roller gliders

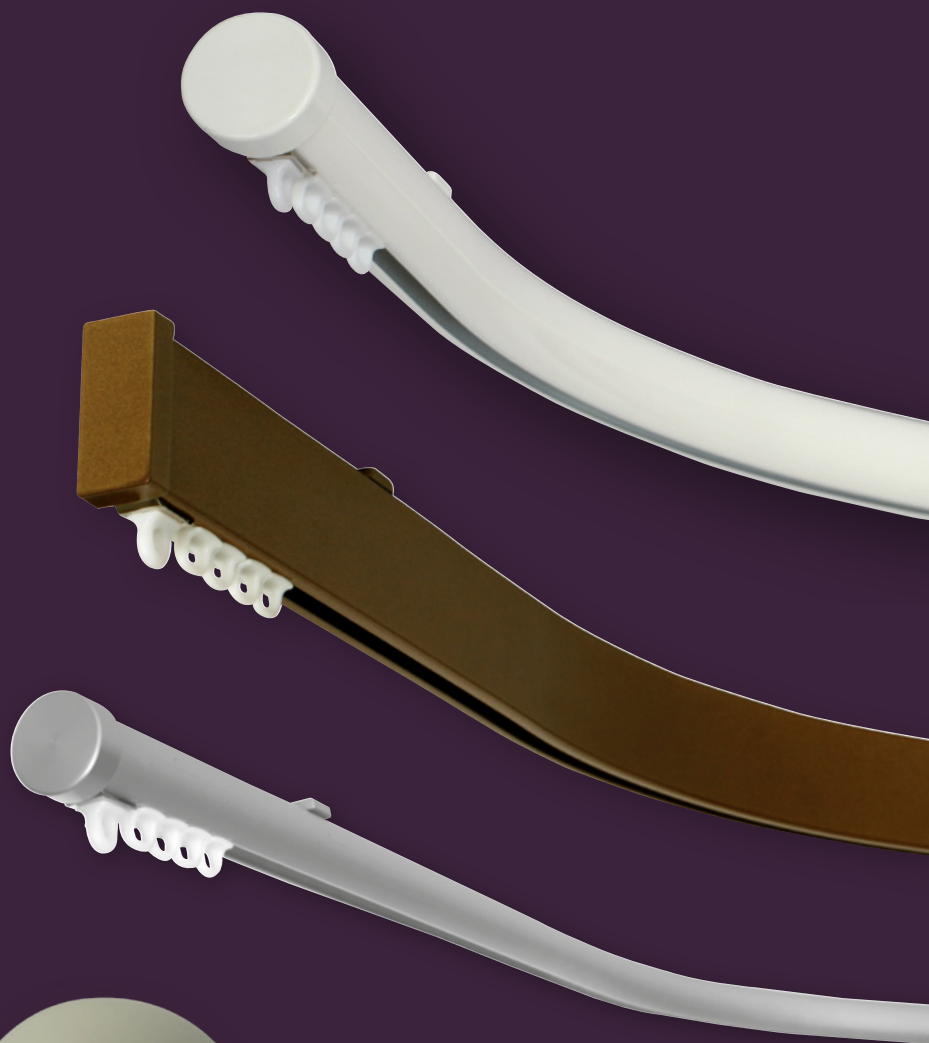

### Bracket Options:

- Discreet top/ceiling fix brackets available
- Strong wall fixed brackets with depth adjustment with the option of standard or long wall brackets at no extra cost (see p 10 for details).

### Bending Options:

- 30cm radius on forward & reverse bends
- Gradual curves available

- Can be used with the SurgeWave system to give a stunning, contemporary look – see p11 for details

# DISTINCTION

## Corded Tracks

Distinction 28 Round & Distinction 34 Flat

### Key Features:

- Distinction 28 Round can be corded from both sides using the intermediate pulley which will also increase the weight carrying capacity of the pole.
- Double overlap arms mean curtains remain well-dressed when open
- Roller wheels on overlaps to prevent jamming on bends
- Cut out in track to allow removal or addition of gliders
- Eyelet on the end hides unsightly cords behind curtain
- Colour matched brackets & cording sets

Distinction 28 Round Uncorded  
& Distinction 34 Flat Uncorded

## DISTINCTION 28ROUND

Distinction Round 28 Range is the most popular of the Distinction family. The clean and smart looks fit with the most contemporary decor, whilst at the same time not looking out of place in the most traditional setting, especially with the addition of the finial options. Available Corded or Uncorded.

### Distinction 28 Round

Track Height: 28mm

Forward and Reverse Bends: 25cm radius

SurgeWave™ Standard Gliders: 60 or 80mm spacing

Roller SurgeWave™ Gliders: 60 or 80mm spacing

Gradual Curves: Greater than 1m radius

Maximum Length (in one piece): 6m

#### Bracket Options:

- Discreet top/ceiling fix brackets available
- Strong wall fixed brackets with depth adjustment with the option of standard or long wall brackets at no extra cost (see p10 for details).

#### Additional Info:

- Efficient nylon gliders as standard, with the option of rollers.
- Double overlap arms allow curtains to stay well-dressed when open.

#### Cording Options:

Can be corded from both sides using the intermediate pulley which will increase the weight carrying capacity of the pole.

## SurgeWave™ System

**SurgeWave™** System gives a consistent heading without having to pull any strings and with your curtains open **SurgeWave™** stacks back to give a tidy, minimalistic look.

The simple-to-install system produces smooth, consistent waves in your fabric which glides effortlessly along your chosen track.

### How it Works Curtains open

When curtains are opened SurgeWave™ stacks back to give a tidy, minimalistic look.

NOW  
AVAILABLE  
SurgeWave™  
Neat Pleat Guides

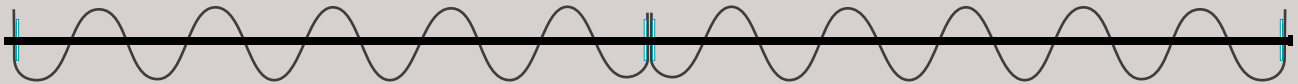

Neat Pleat Guides clip onto the last SurgeWave™ Gliders at each end of your curtains. This ensures the edge of the curtain is folded neatly back to the wall and that your curtains meet with a flush finish when drawn closed. Neat Pleat Guides can also be used to facilitate a draw rod.

Scan the QR code or visit [rca-uk.com](http://rca-uk.com) to download our Surge Brochure

### How it Works Curtains drawn closed

SurgeWave™ gives smooth, consistent waves in your fabric with the curtains drawn closed to a flush finish thanks to the Neat Pleat Guides.

Please note: Curtains will require SurgeWave™ Tape to ensure compatibility with SurgeWave™ Gliders. SurgeWave™ Tape is sold separately.
