For those with a true eye for beauty, meet Ocular,  
the most elegant curtain track you will ever see.

The revolutionary new ellipse-shaped curtain track  
combines sophisticated design with modern finishes.

Why settle for an ordinary track when you can  
experience the beauty of Ocular?

It's not just a track. It's a work of art.

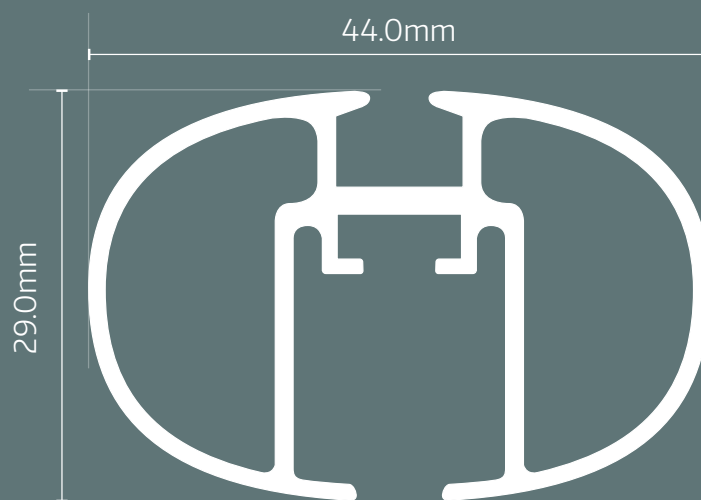

# Appreciate the science

The formula behind the shape of an ellipse is the locus of all points such that the sum of the distances from two foci to any point on the ellipse is a constant – the mathematical equation in Cartesian coordinates is  $(x/a)^2 + (y/b)^2 = 1$

## A smooth operator

With perfectly smooth operation and near silent running thanks to the large rubber-wheel design – Ocular Roller Gliders have been specifically engineered for the track to ensure they will always perform no matter how heavy your curtains.

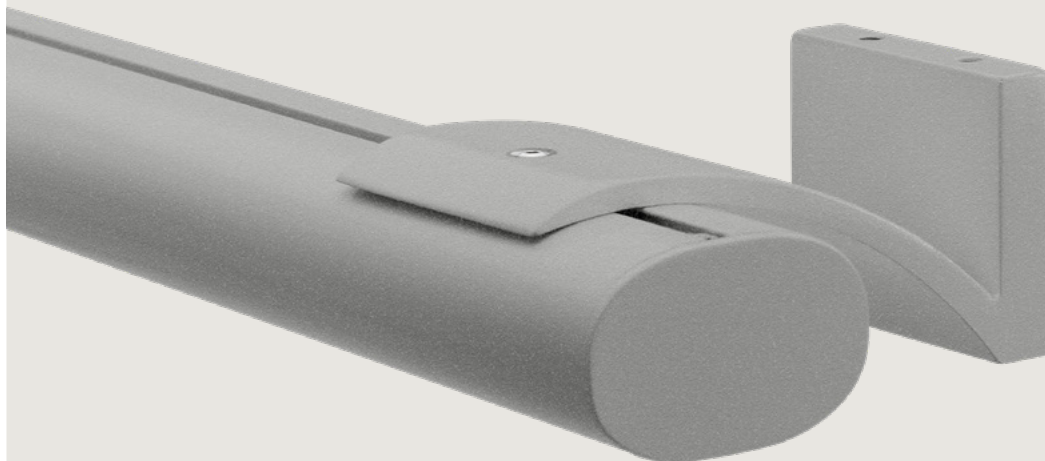

---

## SurgeWave<sup>®</sup> compatible

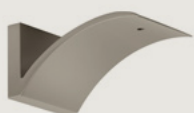

Alternatively you can opt for the latest SurgeWave<sup>®</sup> Roller Gliders, together with SurgeWave<sup>®</sup> Tape, to create smooth, consistent waves in your fabric with the curtains drawn closed. SurgeWave<sup>®</sup> also stacks back to give a neat-and-tidy, minimalistic look.

Light it up!

Ocular Tracks can light up your world – thanks to the unique profile design which features a hidden channel that can hold the optional LED strip light – it creates a beautiful ambient effect between the waves in your curtains.
