WINDOW FURNISHING SOLUTIONS THAT BRING YOUR **DESIGNS TO LIFE**

TRUSTED SOLUTIONS FOR HOTELS

WINDOW FURNISHING SOLUTIONS THAT
BRING YOUR **DESIGNS TO LIFE**

You're delivering rooms that have to work hard - operationally, aesthetically and environmentally. So, you need a supply partner that de-risks delivery and helps you hit your goals without compromising the design intent.

Our product portfolio is built around durability, efficiency and responsible sourcing. Systems are designed to support thermal comfort, precise daylight control and restorative darkness at night - elevating guest wellbeing while strengthening energy performance and sustainability reporting across guestrooms and shared spaces.

We support programmes from concept to handover with scalable, brand-consistent finishes, clear documentation and low-waste logistics that simplify installation and keep delivery on schedule.

With every product backed by a 5-year guarantee for complete peace of mind - and trusted by leading hotel brands including Hilton and Holiday Inn - we help you deliver consistent, resilient finishes across every room, on time, on budget, and ready for guests.

WHY SPECIFY RENAISSANCE?

FOR ARCHITECTS

Complete technical drawings and specifications within 48 hours. Our hardware integrates seamlessly with your designs without compromise.

FOR DEVELOPERS

Transparent pricing structures that help you control costs from tender to handover.

FOR PROJECT MANAGERS

Reliable delivery schedules that protect your critical path. Pre-assembled solutions that cut installation time by up to 40%.

FOR INSTALLERS

Quick-fit systems with all components pre-sorted and clearly labelled. No missing parts, no return visits, no hassle - just smooth installations that keep your day on track.

THE REAL COST OF GETTING IT WRONG?

A SINGLE CURTAIN HARDWARE FAILURE CAN COST THOUSANDS IN REPLACEMENT AND FITTER DAY RATE LABOUR FEES.

Delays can add over **£2,000+** per week to your project if things do not run smoothly. We've built our reputation by eliminating these risks and helping our customers save thousands in late fees.

- NO BUDGET OVERRUNS
- MINIMAL DELAYS
- ZERO CALLBACKS

Our contract-grade components are engineered for longevity and backed by a 5-year warranty and rigorous quality assurance - ensuring minimal maintenance, reduced lifecycle costs, and less waste.

YOU CAN TRUST US TO BRING **PERFORMANCE AND DESIGN-LED** DETAIL TO EVERY UNIT DELIVERED.

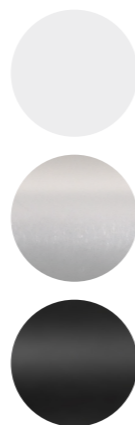

CASE STUDY

CROWNE PLAZA BY IHG GERRARDS CROSS

An elegant hotel refurbishment in Buckinghamshire required a discreet, contract-grade curtain solution that would operate smoothly day after day across guest rooms and suites. We specified our Principal H-Section Metal Track in white with standard 4mm gliders.

We provided the site with 175 Principal Uncorded Track Kits as well as 84 Contemporary Steel Draw Rods in Antique Brass to coordinate with the hotel's palette and enable touch-free drawing where preferred. Each length was precision-cut, labelled by room, and consolidated for floor-by-floor drops - speeding installation, reducing handling, and minimising waste packaging on site.

HAMPTON BY HILTON YORK

FEATURED PRODUCT L-SECTION DIRECT FIT DISCREET TRACK

- MADE TO MEASURE
- IN STOCK DELIVERY
- KITS AVAILABLE
- GROOVE SIZE 6MM
- SURGEWAVE COMPATIBLE
- ROLLER COMPATIBLE
- AVAILABLE IN WHITE
- DIRECT FIT MEANS NO BRACKETS ARE REQUIRED

The brief called for a reliable, smooth-running curtain solution for selected rooms on the fifth floor, with a tidy ceiling line and consistent drape through guest use and housekeeping.

We supplied 11 L-Section Uncorded Track Kits in white with standard gliders, 1 Silent Glide Uncorded Track Kit in white with 60mm SurgeWave® gliders, and 1 Principal Uncorded Track Kit in white with standard gliders - each Made-To-Measure for its specific room. L-Section delivers direct-fix speed via evenly spaced pre-drilled holes, Silent Glide pairs with SurgeWave® for uniform wave folds, and Principal provides a compact 4mm H-Section with a proven accessory set. Every length was cut to size and room-labelled for the fifth floor to reduce handling and waste and to protect the programme.

CASE STUDY

HOLIDAY INN BY IHG BIRMINGHAM CITY CENTRE

A city-centre hotel refurbishment in Birmingham required a tidy, ceiling-set track solution to support layered window treatments across guest rooms, delivering smooth daily operation and a consistent look at scale.

We supplied 184 Project Track Triple-Channel Ceiling Fix Kits in White with 6mm standard gliders. Designed for multi-layered curtains, the triple-channel Project Track fixes directly to the ceiling for a clean, continuous line.

The kits arrived complete with standard gliders, end caps and twist end stops – speeding up room-by-room installation. The uniform specification enabled fast fitting and a robust finish suited to high-traffic hotel use.

- DIRECT FIT MEANS NO BRACKETS ARE REQUIRED

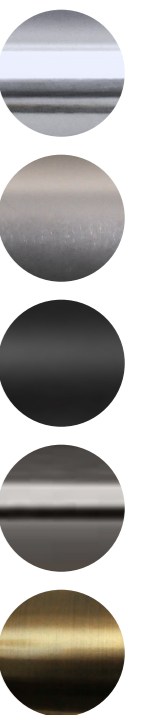

CASE STUDY

HOTEL DE PARIS, CROMER

A coastal hotel upgrade required a robust metal pole solution with a contemporary finish for guest rooms and public areas, delivering smooth everyday use and a tidy, consistent look.

We supplied 32 Contract 28 Curtain Poles, together with 89 Adjustable K-Brackets and 49 Plain Ball Finials all in Brushed Nickel. Each pole was cut to size and room - labelled to speed installation and minimise waste. The Adjustable K-Bracket provided precise projection and alignment, while Contract 28's component approach ensured a consistent, contract-grade result throughout the hotel.

FEATURED PRODUCT

GEORGIAN HOUSE HOTEL LONDON

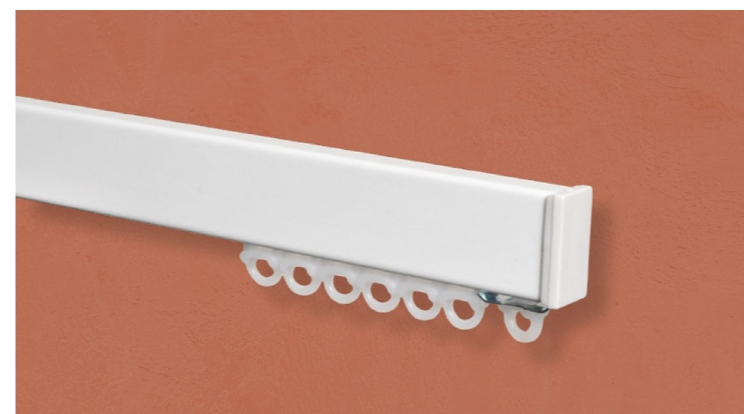

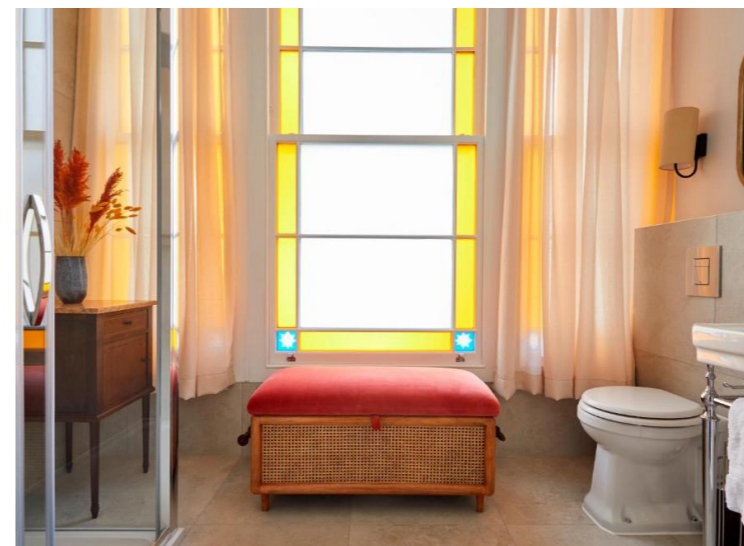

A boutique hotel in London was after a neat, smooth-running curtain solution that was reliable and offered minimal visual clutter.

We supplied our Optimal Uncorded Track in White with standard gliders – complete with brackets, end caps and end stops.

The kit format speeds fitting and keeps the finish consistent.

This contract-grade metal track is built for smooth, dependable daily use and is suited to light-to-medium weight curtains, matching typical guest-room specifications without over-engineering.

TESTIMONIALS

“Collaborating with Renaissance has significantly elevated the standard of our smart home installations. Their cutting-edge curtain tracks and automated systems integrate seamlessly with our technology, providing a sleek, user-friendly experience that our clients love. Renaissance not only delivers top-quality products but also brings a level of service and expertise that makes every project smoother and more efficient. Their commitment to innovation and excellence is evident in every interaction, and it’s why they are our preferred partner for window furnishings”

DAN HART - HIGH TECH HOMES ★★★★★

“Renaissance really gets what we need at West Park Care. Their curtain solutions are not only practical and durable for our care settings but also add a touch of elegance. It’s great having a supplier who delivers on quality and understands our specific needs. Always a pleasure working with them.”

TOM PAGE - WEST PARK CARE ★★★★★

“Ensuring the highest quality and functionality in every aspect of our properties is paramount. Renaissance has consistently provided us with not just products, but complete solutions that enhance both the aesthetics and performance of our living and work spaces. Their expert guidance, combined with an impressive product range, allows us to deliver exceptional value to our customers. Choosing Renaissance means choosing a partner committed to excellence and innovation in curtain hardware. It’s a decision that we continue to benefit from project after project.”

OSCAR BROOKS - MODA LIVING ★★★★★

TRUSTED BY...

COMMITTED TO SUSTAINABLE PRACTICE

AT RENAISSANCE, SUSTAINABILITY IS A PRINCIPLE BUILT INTO **EVERY STAGE** OF OUR DESIGN, PRODUCTION AND DELIVERY. AS AN ISO 9001-CERTIFIED SUPPLIER, WE INTEGRATE **ESG ACCOUNTABILITY** INTO **EVERY ASPECT** OF OUR OPERATIONS, FROM RESPONSIBLE SOURCING TO RIGOROUS QUALITY ASSURANCE.

We’re actively progressing along our Net-Zero Carbon Pathway, with strategies focused on energy mapping, embodied carbon reduction, and increased transparency across our supply chain. We recycle all cardboard, plastic, steel, and aluminium waste at our distribution facility - an approach that reflects our wider commitment to circular resource use and low-impact operations.

This mindset shapes product design too. Our Professional Large Curved Track is engineered from recyclable aluminium, delivering durability, high performance, and material efficiency in one specifier-ready system.

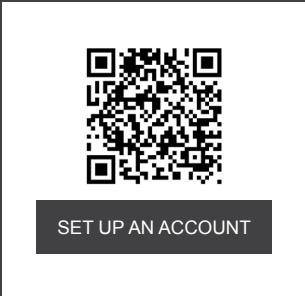

Our tracks support daylight blackout of 95%, and provide effective solutions ideal for bedrooms, media spaces, and environments where precision lighting is essential to occupant comfort and functionality.

From enhanced thermal comfort and daylight control to streamlined on-site logistics, our systems help clients achieve energy efficiency, wellness, and sustainability outcomes- without compromising on aesthetics or performance. Renaissance is ready to support your next ESG-driven project with minimal delays, credibility and measurable value.
